

## **Michel Penneman**

### **Work in progress...**

Michel Penneman graduated in architectural drawing from the Institut Saint-Luc in Brussels. He started his career in 1986 in the Tractebel consultancy, then became a CAD consultant for several major architectural firms in 1988. In July 1994 he created his own company, Détrois SA, specialised in creating architectural computer-generated imagery. Parallel to Détrois, he did interior designs such as the Antoine Camus jewellery shop in Paris, the White Hotel & the Pantone hotel in Brussels, Michel Penneman is continually searching for original concepts. He works with several architectural firms, contractors, lighting and acoustics experts.
